

## Nine Reasons to Start Using LearningPlanet Today!

1. LearningPlanet is suitable for all front line staff and managers, whether phone based or in face to face roles
2. For one person, LearningPlanet is just \$29 per month which provides unlimited access to all libraries of 1 minute, 10 minute and online modules. That's over 250 learning resources
3. Over 12 months, that's still under \$350 per person which is less than you would expect to pay for a one – day training programme on one topic
4. For teams, LearningPlanet is available at \$350 per month for up to 35 people to have unlimited access to the same libraries as an individual person
5. You can learn a technique to apply easily in just one minute or spend 30 minutes and complete an entire module
6. Topics are all centered around customer service, sales and leadership as well as areas like time management and resilience skills
7. New content is added monthly
8. Tracking progress is available for individual licences
9. There are no contracts, so there is no risk and you can cancel anytime. To cancel, just email us with that request at [info@learningplanet.me](mailto:info@learningplanet.me) with your name and email address and that's it!

If that's not enough information – here are some FAQs that may help some more!

<p>We don't have any budget</p>	<p>LearningPlanet is inexpensive. From just \$10 per person per month for a site license of \$350 per month total, the cost is very low. Lower than a one-day training course for individuals or groups and you have <b>12 months unlimited</b> access. An average one day classroom session will cost approx. \$4000 whereas you can train <b>35 people for 12 months for \$4,200 or \$120 per person PER year</b> unlimited use on LearningPlanet. If you have a small team or just one person needing training, Individual licences are just \$29 per month.</p>
<p>We do our own training</p>	<p>That's great. LearningPlanet is not a replacement for your training. It's designed to be a refresher tool on a wide range of soft skills topics. It's generic enough to help people apply it to most roles and assist with an ROI on in house training.</p>

<p>It's too generic</p>	<p>LearningPlanet is designed to be for many organisations. We have introduced workbooks and interactive exercise for users to reflect on how to apply the principles in their own role. This helps to make it relevant to their role. The skills are relevant for all organisations and roles as we are training on transferrable soft skills.</p>
<p>We already have an e-learning system</p>	<p>Most businesses we speak to have one these days. We also notice that these systems focus on systems and the organisational practices. Very few include the soft skills we are providing.</p> <p>LearningPlanet videos are available for sale and can be used on your own LMS.</p>
<p>We can't access videos</p>	<p>A lot of businesses put restrictions in place for access to sites like YouTube. We understand that. Our site uses Vimeo and when the videos are played, they do not offer access to the Vimeo site as they are embedded into the system. Your IT people can have a look at the site so they can see how to allow access for your people to watch the videos. In addition, as its web based, people can access it from any internet connected pc / smart phone – even at home. You may like to consider having some dedicated PCs available and roster people on for training.</p>
<p>Are we tied into an annual contract?</p>	<p>No, LearningPlanet licenses are rolled over month to month until you ask us to stop. <b>There is no contract.</b> You can cancel anytime.</p>
<p>How can I pay?</p>	<p>Our payment terms are payment on the first day of use.</p> <p>You can pay monthly, quarterly, 6 monthly or annually whichever way is easier for you!</p> <p>Credit card or invoice just let us know.</p>
<p>What if one of my people leaves do I have to pay for a replacement?</p>	<p>That's okay. If they are on an individual license, you can stop their license anytime. You can replace them with a new person <b>for free</b> with a new user name and password. If you are on a site license then <b>nothing</b> changes and you give your new person the access details.</p>

How stable is your system?	We are currently hosted in The Cloud with a range of back up redundancy servers in both Asia Pacific and Americas. Our present track record is the system has been down less than 2 hours in total over a period of 12 years.
What parts can we access?	Your log in will give you instant access to all the videos and eLearning modules. No parts are withheld or restricted.
How often is material updated?	New content is added online <b>every month</b> .
Where does the material come from?	We have been involved in delivering Learning and development for 20 years and have a wide range of areas of expertise we draw from. We also encourage the users community to tell us if they have any content ideas which we will put into production.
How can I use LearningPlanet?
